

## Access Control Reader

HYU-AC-RES6EM001

### SPECIFICATION

|                              |                                  |
|------------------------------|----------------------------------|
| <b>Operating Voltage</b>     | 9~24V DC                         |
| <b>Frequency</b>             | 125KHz                           |
| <b>Card Type</b>             | EM card                          |
| <b>Reading Distance</b>      | 3-8 CM                           |
| <b>Output Format</b>         | Wiegand 26 bits                  |
| <b>Operating Temperature</b> | -40 oC ~ 60 oC (-40 oF ~ 140 oF) |
| <b>Standby Current</b>       | < 25mA                           |
| <b>Operating Humidity</b>    | 10%~98% RH                       |
| <b>Index of Protection</b>   | IP66                             |
| <b>Physical</b>              | Zinc-Alloy                       |
| <b>Color</b>                 | Silver                           |
| <b>Dimensions</b>            | L103 x W48 x H19 (mm)            |
