PROFESSIONAL DYNAMIC MICROPHONE
BP-PA-DMIC01

Enjoy it.

Product Description

BP-PA-DMIC01 is specially designed and made for various kinds of meeting, lectures, broadcasting, recording occasion, etc. It adopts high quality dynamic cartridge to make sure that the microphone has high sensitivity and good frequency response. BP-PA-DMIC01 is dynamic microphone.

Please read the following instruction carefully before use the microphone.

BP-PA-DMIC01 is shaking-proof conference microphone with switches (including built-in switches) and instructions. It can be assembled or disassembled easily. Its designed to put on desk. Its base is made from Integral die-cast metal, delicate and small-sized.

The base is sprayed with anti-reflective black paint. 3-pin XLR female socket and a 3-digit XLR female socket are for input. 3-pin XLR male socket is for output.

Features

With full anti-interference

Anti - electromagnetic interference and anti-mobile phone interference help the microphone avoid whistling or noise from the microphone.

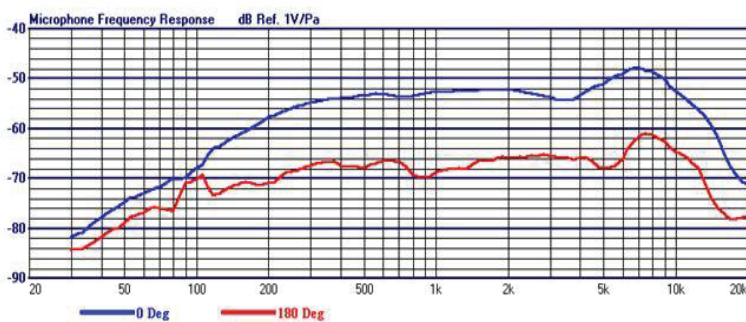

With switch impact eliminated

Some special technology is applied for eliminating noise when switching on/off the microphone. And it also avoids damage to the microphone.

With good frequency, high-fidelity

Applying a special high-quality heart-shaped and ultra-pointing to the microphone core, coupled with a reasonable electro-acoustic circuit to make frequency response more broad and flat, producing high fidelity, clear and charming voice.

Microphone Response

Instruction of Installation

1. As the right pic shows, connect the microphone tube to the base and set the windshield to the head to avoid dust into the head.

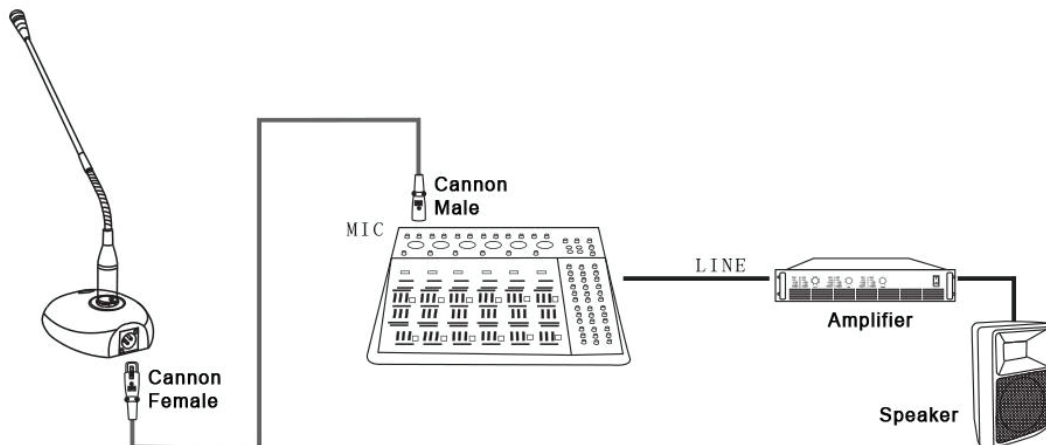

2. Connect the microphone to amplifier or audio console.

A: Connect the microphone to amplifier

BP-PA-DMIC01: Connect the microphone to the amplifier phone jack without phantom power supply

B: Connect the microphone to audio console

BP-PA-DMIC01: Connect the microphone to the audio console phone jack without phantom power supply

4. After the connection is done, set the mic volume on amplifier panel zero. And turn on the speaker, mic power and mic. Adjust the volume and sound quality by speaking through the mic.

Note:

Don't direct the mic head to speaker or put the head close to speaker. Otherwise, it may produce whistling.

Specification

Model: BP-PA-DMIC01	
Capsule Type	Dynamic
Frequency response	50Hz ~ 16KHz
Sensitivity	-73dB ± 3dB
Output impedance (ohms)	600Ω ± 30 % at 1KHz
Polar pattern	Cardioid
Micro tube length	455mm
Base size (W x D x H)	115 * 138 * 40 mm
Anti-interference	Anti-mobile phone, anti-electromagnetic
Net weight	1.1kg
Gross weight	1.9kg
Packing size	450 x 175 x 75mm

Packing list

Component	Quantity
Microphone	1
microphone cable	1
Windshield	1
Manual	1
